

A Proposal

To Produce Christian-based Videos For Internet Evangelism

Objective Produce good quality Christian videos for upload to the internet for evangelism purposes and to encourage the believers.

Past Work

Have already uploaded several video clips to YouTube.com, MySpace.com, etc.

These include:-

1. Seven Doreen Irvine video clips. These were taken from 2 " VHS " type videos converted to DVDs.█

2. Several street and indoor preaching videos taken using a mobile phone. The sound is good but the picture could be much better. One of Robert preaching on New Street, Birmingham with an altar call is particularly good.

3. Thelma testimony (2 parts) using web cam and desktop PC.█

One Doreen Irvine video clip over the last 3 week period has had an average of over 60 views / week or about 9 views each day.

Future Work

- Produce more inside / outside preaching, teaching and testimony videos.
- Design and construct integrated video/web systems for others.
- Advertise videos on PAFN tracts.
- Apply more video editing methods.
- Promote the videos more actively on the internet.
- Need better digital camera for the streets.
- Acquire other non-copyright DVDs or videos and extract clips.
